VOL. V. NUMBER 150

## SESSION LASTS TILL 2.10 O'CLOCK

Obstructionists Continue to Obstruct  
—The Whigs Say They Will  
Sit Till Christmas.

Ottawa, June 2.—The obstructionists in the House of Commons on Saturday again succeeded yesterday in putting off debate on several bills, and in so doing prevented the business of parliament unless they got their way with regard to the constitutional amendment bill.

In effect they declared against making any extra efforts themselves towards having a close of a session which was already protracted, while at the same time it made it evident they would not let the government move forward.

Mr. Knowles, of West Australia, showed clearly how the importance of a vote of confidence in the government would prevent a general election.

He opposed Sir Wilfrid Laurier's motion asking members of the House to work at home during the session in sitting.

They blocked supply by the usual time-killing devices of bringing up trifling questions, of raising issues and by endless unimportant questions about work of sundry committees.

The chief Conservative whip, Mr. Knowles, of Moose Jaw, strongly opposed the proposal of the government to sit in the House until Christmas rather than let classes open and several weeks pass.

The situation, with regard to the deadlock, remains unchanged.

**Opposed to Lower Motion.**  
—On Saturday morning, today's debate was the attempt of Colonel Sam Hughes to induce the Government to impose a tax on imports from Canada into the United States. Mr. Knowles, of Moose Jaw, strongly opposed the proposal on the ground that it would not be popular.

The House adjourned at 2.10 this morning, after passing \$239,500 of the customs estimates.

## ONTARIO NOMINATIONS CREATE NO EXCITEMENT

Except in Wildand Where Conservative  
Candidate Failed to Comply With  
Election Act, Provinces—Six  
Conservatives Elected by Acclamation,  
One Liberal.

Toronto, June 1.—The nominations in Ontario today passed off without any excitement except in Welland, where George Knowles, the Conservative candidate, claimed the election from Evan Fraser, the late sitting member. The election was held at 10 a.m. and the result was that the position of the opposition was held.

Mr. Knowles, of Moose Jaw, strongly opposed the proposal of the government to sit in the House until Christmas rather than let classes open and several weeks pass.

The situation, with regard to the deadlock, remains unchanged.

**Opposed to Lower Motion.**  
—On Saturday morning, today's debate was the attempt of Colonel Sam Hughes to induce the Government to impose a tax on imports from Canada into the United States.

Mr. Knowles, of Moose Jaw, strongly opposed the proposal on the ground that it would not be popular.

During question time, W. D. Staples (Conservative), Macdonald said he had been told that there was no fundamental difference between the medical fees from transcontinental flights. These amounted to only five cents.

**Object to Working Harder.**  
—On Saturday morning, W. D. Staples (Conservative) was followed with some severity by Mr. Sprude who was the first to object. He said he considered it a little early for the government to demand more strenuous efforts than those made in Quebec and Ontario.

It was only fair, he said, to have a stand over the working day.

**The Premier.**—"Matters in which absences are anticipated must be left over to the responsible minister to be decided for the despatch of general business."

Hon. R. L. Borden and Hon. Geo. E. Foster objected to suspending the debate on the bill to prohibit strikes on Thursday last, the latter pointing out that with the heavy government legislation it would require at least two weeks.

Hon. Mr. Fielding compared Parliament to a well-organized factory, where every worker, ordered, worked overtime.

Hon. Mr. Foster.—"It is not a working man's factory."

Hon. Mr. Fielding.—"If the Opposition recognized their responsibility, they would have voted down the bill to prohibit strikes on Thursday last, the latter pointing out that supply was most urgent. The longest the session should have been is three weeks, and it was not fault of the government if there had been poor heavy rain."

**MANY INDIANS ARE DYING.**  
—Nearly Half the Indians in Alaska Have  
Tuberculosis.

Seattle, Wash., June 1.—Parliament per cent. of the adult Indians of Alaska are suffering from tuberculosis, while particularly among the children the rate indicates that some bridges have been crossed, and the unconfirmed rumor that two women, clinging to life, were swept by a tidal wave.

Sgt. Major Bryan, of D division, returning from the Mounted Police, who arrived from Jamaica, The incidents of being held up by bandits while the dispute over the insurance claims was in progress has now been laid to rest in Netherland.

Against the insurance companies have been decided in favor of the Jamaican claimants, and the amount of the claims have been paid, but a new air of hopelessness prevails. Building up the economy of the country is still a long way off.

Democrat Senator in Oregon.—Portland, Ore., June 2.—Incomplete information is available at the state office of the U. S. Senate concerning the election of U. S. senator over Henry M. Cade, Republican.

The election law and for the first time in the history of the state, the election of senator the most important election in the history of the state, was won by a single majority.

Church Unites Not Dead.

London, Ontario, June 1.—Bishop of the Diocese of London, Rev. Dr. J. H. Duncat, is elected U. S. senator over Henry M. Cade, Republican.

The election law and for the first time in the history of the state, the election of senator the most important election in the history of the state, was won by a single majority.

The only solution is that they lie in bed and die, leaving the world in the lurch.

Church Thieves Arrested.

Montreal, June 1.—A vigilante committee has been formed for watching suspect. Three men hit up and drove seven miles when the refugees watched closed in and captured the three men with the gun.

T. K. Evans, the hired man, and his son Cecil, with the hired man, Jack Evans. The prisoners were given in charge of the Royal Constabulary and removed to Birlingham.

J. A. Foster, of New Westminster, however, had been counting the passes of Birlingham while Taylor was taking care of the other two.

Finally, Mr. Lake's amendment was agreed. The bill will now go to committee, but not Wednesday evening for its present defeat.

**Festorian Bluff.**  
—Mr. Foster, again on a question of privilege, challenged the statement

of the Minister of Militia, averring that he had posted another bought him for the Union Trust Company paid for lands on the money of the Union Trust Company, nor received any compensation for the lands. The former's statement was absolutely untrue.

Sgt. Frederick Borden: "Since the house is not mine, and we did not do the things charged, I cheerfully withdraw the charge."

On motion to go into session, Colonel

Hughes made a place for duty on Unit-

ed in the House of Commons on

Wednesday, and to any extension of

the business of parliament unless

they got their way with regard to the constitutional amendment bill.

In effect they declared against

making any extra efforts themselves

towards having a close of a session

which was already protracted, while at the same time it made it evident they would not let the government move forward.

Mr. Knowles, of West Australia,

showed clearly how the importance

of a vote of confidence in the government would prevent a general election.

## THERE IS BIG SUPPLY OF WESTERN BONDS

Provinces and Municipalities will Borrow—Are Awaiting Good Market Conditions to Various Large Undertakings—The Civic Improvements.

**Winnipeg.** June 1.—The relaxation in the money markets of the world has not yet been felt extensively in Western Canada, and there is a general assumption that the supply of funds available from time now on, rates well maintained. In spite of the fact that development is progressing rapidly, and in the last couple of years ago, an enormous amount of money is required to carry on the various projects. Railway construction and equipment call for millions every year, and the war was followed by a number of municipalities which the aggregate responsible for expenditures nearly as large. Private enterprise has declined as much as the public, and on account of the depression and the building trade in particular, many large projects are going ahead, and the international market has affected directly the small enterprises.

**Railway Construction.** Optimistic calculations at the beginning of the year were made, it appears, that a total of about \$300,000,000 would be spent on railway construction between the time of writing and the Fall of 1927 during the next six or eight months. This sum in itself would all be needed. During the six weeks since the time of the original estimate, however, it has been made known that high officials of the various railway companies have not been saying much about the future of the market, which is to be completed this season. The lines which have been begun will be pushed through, but little or no new cable, while little or no pioneer construction work will be attempted.

The financial situation has been pushed through to Edmonton this fall, if possible, and good progress will be made with the help of line men like William to Louis St. John. The National Transcontinental will also be a scene of activity, assuming that the work which has come from Winnipeg should be finished for the close of the year. The Canadian Northern has given up its efforts to the contracts which have been under way for some time, and to the towns, including Calgary, Moose Jaw and Lethbridge, are making ready for a campaign of intense competition.

**Initiation and Competition.** The financial situation has been another condition of the current market has encouraged the men in the business to go into the field of administration throughout the west to discount the future in their experiments. The situation is far from clear cut now, but it was at this time last year, and there is a greater tendency than ever before to compete for the present market. The present market is not so large as the aggregate supply of bonds, but the aggregate supply of bonds is sufficiently large to tax the digesting capacity of the market.

A decision by the Illinois Supreme Court reversed the Rock Island Appeal Court's decision that Mrs. Mary Bleckley, deceased, died in her daughter back to Illinois, where she resided in the Lawrence District Court, thus going against the Illinois Supreme Court's decision that little Mrs. Bleckley had been born and belonged to her real mother. From the time of her birth, Mrs. Bleckley and the younger have lived in Lawrence.

**LESS LIQUOR CONSUMED.** Internal Revenue Figures in Canada and U.S. Decrease.

Ottawa, June 1.—Whether or not the growth of the prohibition movement, or the growth of the financial stringency, advocates of temperance may regard as significant the fact that the Internal Revenue Department, or the past six months, shows a decided decrease in the consumption of liquor.

The statistics, compiled by the Bell Telephone System in the U.S., show that at \$3,463,000,000, the payment was in long term bonds bearing interest four or five per cent, and that an immediate call by the Province on capital account is necessary. The method of financing the call, as it has not been explained in detail, is known to the public about the means to be adopted for meeting the bill. The best opportunity for distinguishing between government and corporate ownership is to be found in the aggregate and net worth of the Alberta telephone system in the U.S.

**CHICAGO PRIEST THREATENED.** Priest and Attorney Receive Letter Warning Them of Their Death.

Chicago, June 1.—Father Peter J. O'Callaghan, a priest of the Diocese of Chicago, and Attorney Francis S. Hinckley have been informed that they were to be killed. The two had been marked for death by a unknown man who had been seen near the Wabash and Hubbard church, Wabash Avenue and Hubbard Street, has been deemed to be blown away by an unknown hand, and his post box at St. Mary's Church, where he resided, was tampered with. It was unsigned and unaddressed. One side was a rude picture of death to the priest and lawyer threatened, it is believed, in connection with the killing of Father Hinckley, under sentence to hang on June 12 for poison gas.

A criminal analysis proved the red fluid in which the man was found to be the blood of a woman. Father O'Callaghan declared just right that he would lay his life down for justice, and that the money market is easily taken, and the supply of funds available for government borrowing will before long be more than sufficient.

**Alberta Telephones.** The government of Alberta directed a close investigation of the Bell Company in the acquisition of the telephone system in that Province. The telephone system, \$60,000,000, was generally supposed that the purchaser obtained relatively more for the telephone system than the telephone tolls. A difference in terms had some effect, of course, the Alberta government being more parsimonious with the money market is easily taken, and the supply of funds available for government borrowing will before long be more than sufficient.

**Alberta Telephones.** The government of Alberta directed a close investigation of the Bell Company in the acquisition of the telephone system in that Province. The telephone system, \$60,000,000, was generally supposed that the purchaser obtained relatively more for the telephone system than the telephone tolls. A difference in terms had some effect, of course, the Alberta government being more parsimonious with the money market is easily taken, and the supply of funds available for government borrowing will before long be more than sufficient.

**BRITISH TROOPS IN PERIL.** Rebels in India Resist Every Foot of English Advance.

Caleutta, June 2.—Indiscouraged by their loss of more than 200 warriors and their retreat from the British troops at Urik-Killi, the rebels Mohamedan tribesmen along the Northern frontier of Bengal, have been defeating every foot of the English advance into their country.

General Sir James Willoughby, who assumed his command a few days ago, has decided to take over the lines of the private telephone company, and the present outlet in that country is to be maintained.

The estimates submitted by the Provincial Treasurer to the Legislature at Regina, show that the province will spend \$250,000 during the coming year probably for the construction of new lines, and that the cost of the telephone system, which is to be used exclusively for operation, will, it is expected, be offset by a reversal of the same amount by the reduction in the cost of government on capital account in that province for the whole fiscal year, according to the estimate, amount to \$1,450,500. The ordinary expenditure

amounting to \$2,674,700. It is to be noted that no new telephone system has been installed in Saskatchewan, and the expense of capital equipment is to be covered by temporary loans from the banks. The rate for these, it is understood, is to be one per cent, to be paid by the Alberta government.

The total amount of telephone services to the three prairie provinces with respect to telephones alone amount to \$4,325,000, and this does not include the amount which the telephone movement has spent in the construction of its own system. These probably approach \$10,000,000, but the amount to be paid to the banks for bonds issued by the telephone companies, the debentures will be offered along with a number of other debts, and the interest rate will probably be maintained at a per cent.

**Muriel Outlays.**

The local municipalities are or may be as prodigal in their outlays as the railway companies, but they were a year or two ago, but their outlays are a vast amount. Winnipeg, as well known, has been casting about for a long time to find a place to dispose of her debentures, and has been unsuccessful, and has committed herself to a huge expenditure, and if she could find a buyer for bonds, she would leave the city, and the railway authorities, and the Williams had completed a deal for a block of debentures at a comparatively high price.

These bonds are to be sold at a good price, but little or no pioneer construction work will be attempted.

**Railway Construction.** The railway construction work which is to be done in the next six months, is to be completed this season. The lines which have been begun will be pushed through to the end, and the railway companies will be a scene of activity, assuming that the work which has come from Winnipeg should be finished for the close of the year. The Canadian Northern has given up its efforts to the contracts which have been under way for some time, and to the towns, including Calgary, Moose Jaw and Lethbridge, are making ready for a campaign of intense competition.

The financial situation has been another condition of the current market has encouraged the men in the business to go into the field of administration throughout the west to discount the future in their experiments.

The situation is far from clear cut now, but it was at this time last year, and there is a greater tendency than ever before to compete for the present market.

The present market is not so large as the aggregate supply of bonds, but the aggregate supply of bonds is sufficiently large to tax the digesting capacity of the market.

A decision by the Illinois Supreme Court reversed the Rock Island Appeal Court's decision that Mrs. Mary Bleckley, deceased, died in her daughter back to Illinois, where she resided in the Lawrence District Court, thus going against the Illinois Supreme Court's decision that little Mrs. Bleckley had been born and belonged to her real mother. From the time of her birth, Mrs. Bleckley and the younger have lived in Lawrence.

## BABY'S FATE IN BALANCE.

White Woman Who Adopted Sister Child Determined to Keep It.

Chicago, June 1.—The United States Court of Appeals will be asked to decide whether Mrs. Marion Alberta Bleckley, the famous incubator baby of St. Louis, Luis.

Mrs. Bleckley, as her real mother, has named her, is only 4 years old, but four important courts have passed on the case, still not satisfied, is to hand down a decision. She has been brought up in a home in Buffalo, New York, by Mrs. Bleckley in efforts to keep her and Mrs. James C. Barclay, three times to Mrs. Bleckley.

## DEMONSTRATION

We are holding a demonstration of COWAN'S PERFECTION COCOA at our stores this week. Cowan's Cocoa is Canadian made, and one of the very finest cocoas to be had at any price.

Leading physicians say that cocoa is one of the best foods in the whole dietary list, either in health or sickness. It is flesh forming and it enriches the blood.

COME IN AND TRY A CUP ANY DAY THIS WEEK.

## OUR GROCERY DEPARTMENT

Our grocery department stands for what is best in either Fresh or Preserved Foods. Everything we sell is of the very best quality. We do not even consider inferior goods.

They are dear at any price. Our shelves are always filled with a comprehensive assortment of fancy and staple groceries

—AND THEY ARE ABSOLUTELY FRESH. YOU WILL FIND HERE

WHAT YOU FAIL TO FIND ELSEWHERE.
